

PRODUCT DATA SHEET

BEL-RAY[®] EXP SYNTHETIC ESTER BLEND 4T ENGINE OIL

Bel-Ray EXP Synthetic Ester Blend 4T Engine Oil is a premium semi-synthetic motor oil for 4-stroke engines. It combines the performance advantages of high quality synthetic and cost-effective mineral oil base fluids. **Bel-Ray EXP Synthetic Ester Blend 4T Engine Oil** exceeds the performance requirements of API SM and JASO MA2. The oil is suitable for air-cooled or liquid-cooled 4-stroke engines and wet clutches.

Applications

- ◆ For use in all 4-stroke engines requiring an oil meeting the API SG/SH/SJ/SL/SM standards
- ◆ For use in all 4-stroke motorcycles with or without wet clutches including those specifying the use of a JASO MA/MA1/MA2 qualified oil
- ◆ Use in all 4-stroke motorcycle engines with or without wet clutches

Features and Benefits

- ◆ Superior anti-wear Reduced cylinder and ring wear. Longer bearing life.
- ◆ Superior deposit control Cleans deposits. Controls sludge and varnish formation. Keeps ring lands and grooves free of carbon build-up.
- ◆ Semi-synthetic blend Provide the cost-effectiveness of a mineral based motor oil and a high performance synthetic.
- ◆ High viscosity stability The shear stability provides superior lubrication and film strength. Minimizes friction for maximum power.
- ◆ Smooth power transfer Prevents clutch grabbing for an easily controlled and efficient gear shifting and clutch operation.

General Description

Bel-Ray EXP Synthetic Ester Blend 4T Engine Oil is a superior combination of cost-effective mineral oil and high performance synthetic base fluids. **Bel-Ray EXP Synthetic Ester Blend 4T Engine Oil** is a 4-stroke motorcycle engine oil providing outstanding wear protection.
