

# PRODUCT DATA SHEET

## BEL-RAY® V-TWIN MOTOR OIL

**Bel-Ray V-Twin Motor Oil** is a value priced, multi-grade 4-stroke petroleum engine oil formulated for V-Twin engines. It is formulated with high Viscosity Index and low volatility petroleum base oils.

### Applications

- ◆ Provides the best low cost lubrication performance, engine protection and reliable all-season use
- ◆ Use in all V-Twin engines where economical protection is desired

### Features and Benefits

- |                             |  |
|-----------------------------|--|
| ◆ Quality engine protection | Exclusive Bel-Ray anti-wear chemistry reduces bearing and valve train wear and keeps pistons and rings from scuffing.  |
| ◆ Low volatility base oils  | Minimize oil consumption.  |
| ◆ Superior deposit control  | Cleans deposits and reduces sludge and varnishes. It lowers temperatures and minimizes deposit formation for cleaner and cooler running engine.                                |
| ◆ Increased reliability     | Bel-Ray's additive chemistry, high Viscosity Index, low volatility petroleum base oils and oxidation stability provide added wear protection for increased engine reliability. |
| ◆ Economical protection     | Provides excellent low cost lubrication performance and engine protection.   |

### General Description

**Bel-Ray V-Twin Motor Oil** provides shear and oxidation stability and deposit control for quality lubrication performance and engine protection. Specific Bel-Ray anti-wear chemistry means engines last longer and are more reliable with added wear protection to increase bearing life. Equally suitable for air or liquid cooled engines, **Bel-Ray V-Twin Motor Oil** meets or exceeds V-Twin requirements and WILL NOT void warranties.
